Who We Are

We were three creatures, three different generations, three backgrounds: native american, white, mestizo, south american, Three with one reality: the presence of the spirit that transcends all borders of the mind, spirit, emotion, age, geography. Thanks Global Heart for facilitating this cross-human unification of selves.

Living Our Dreams

This is history's most daring adventure. It will be nourished most by open hearted vision. It will be expanded furthest by theme of forgiveness. It's greatest strength will come by unleashing the talents of all people. One small step on one person's part can create transforming changes on Earth if we do it together, we are the generation to make this dream of humanity our daily practice, our enduring triumph.

#8, *Rennie Davis, Campaign for the Earth*

Sharing with the Whole Group

Share your project, your vision, your dream with the other people through Da Zi Bao. It is a way to share with the whole group what we shared in our three-person groups.

Reducing Meat Consumption

The single act of reducing meat consumption in our diets can have a huge impact on improving every environmental crisis on the planet, including global warming topsoil loss, pesticides poisoning the food chain. Huge factory farms squander our precious resources, and the standard American meat-based diet is unsustainable. Reconnect to the web of life and save our water, trees, soil for the children of the future.

The Solar Ecology Village and End to War

I am Mareba (Beloved of the Mother) knowing that I'm here to be a spokes woman for the Mother-Way in this Earth Walk. I am devoted to the creation of a multi cultural coalition of eco-activists to help make Boston an environmentally sound city, and to build a solar ecology peace village in Massachusetts, with a new high school. We will make an inspiring (musical) movie of what is possible for the American people.

#11, *Mareba JOS, Boston Earth Day - Earth Decade*

Permaculture/Sustainable Culture

I'm interested in meeting folks who want to create and exchange around the topics of interpersonal change, sex, healing. So much of what we humans do to other life has to do with what we repress in ourselves. We cannot respect "nature" without respect for our "nature".

#12, *Patricia Du Bosse, Earth Harmony*

Agenda 21 on Hypercard

The entire text of Agenda 21 has been put into a Hypercard format for Macintosh computers, to allow powerful, rapid search through the 700 page text. For a demonstration, and to find out how to get a copy, visit the Da Zi Bao desk.

The time has come

Pollution is only a symptom of the unbalanced inner spirit of the human race. We must first resonate together in spirit, through music and our children. The time has come for a global pow-wow, heal the spirit, and the pollution will disappear.

#14, Franko Richmond, *Earth Emerge + See*

Permaculture Education

I am willing to give the information of this model for sustainable, creative, ethical living to anyone interested. I have a new video here with me, called Global Gardening.

Life and Responsibility

The concept that we are one with all of life's Myriad forms that we are interdependent with all life species and that we uniquely, of all the evolved animals thus far, are responsible. Responsible not to subdue and have dominion over all living things that share this earth should not be responsible for our loss of innocence.

Sustainable Communities

How do we regenerate this threatened planet and our local communities? What are some practical strategies for celebrating quality affordable homes and rewarding livelihoods in the spirit and convert my ecological awareness and concern into daily meaning action? It is time to answer these questions together and begin building ecological urban villages and sustainable rural communities. CEED is ready to link up, cooperate, co-create with Terra Christa campaign for the Earth. Do it together. We need your help, ideas commitment and cooperation.

OMAME

"OMAME" is the whole word artist. Omame is the creator of everything that exists. He created himself first and invented the forests, the heavens, the water, the colours and with the colours he painted Nature. He is the One who discovered the first woman -

Thaweyomaa - a mermaid, daughter of the big snake, that lives in the sea. With the mermaid he created all the Indians and all the whites of the world. And then he created all the seeds and good things for the people of Earth. The whites have forgotten about OMAME. They just recognise their God who has created the sin and the devil. The whites must remember OMAME. And as OMAME is also an artist, because He has invented dance, music, painting, you (the artist) should help the whites to remember him, by using his name and explaining what does it represent.

#37, *May East, GAIA Foundation/OMAME Project*

Sacred Space and Ceremony Planning

I found the meditation on Friday morning disturbing. It was too long, too fast, and I left preached at while I was in my own sacred space. The words were very good, but the presentation was depressive for me.

#38, *Howard Wood, Findhorn Foundation*

Leveraging for Greatest Impact

I work with people in organizations to change those organizations. I facilitate the process of dismantling or allowing weak or non-functioning structures. Human systems design based on organic principles. I emphasize the discovery of strategic leverage points within the system which when used correctly can release much energy which eases the change into being. let me know how I can help with the Earth Summit.

#39, *Catherine Cleary, New Era Systems*
